

E #16 ASABE Foundation Dinner

A Stellar Evening at Space Center Houston

Date: Tuesday, July 19, 2022

Time: 6:30–10:00 pm

Get ready for a memorable evening during this year's annual meeting, as the ASABE Foundation invites you to its annual celebration event, taking place this year in the Main Plaza at the official visitor center of the [NASA Johnson Space Center](#). Our group will enjoy sole access to the facility in this exclusive after-hours event.

The center places an educational emphasis on science, technology, engineering, and mathematics in a fun and engaging manner. Space exploration is the key that inspires innovation and exploration of any new frontier. Mingle through the exhibits, including Mission Mars, the International Space Station, Starship Gallery and the soon-to-open Artemis Moon Mission exhibit.

Our three-course dinner will be served by the world-renowned Wolfgang Puck Catering, and afterward we'll hear from the leaders of [Team 118 Robonauts](#), one of the most award-winning teams within the FIRST Robotics competition, coached by NASA-JSC engineers. Their talk will feature live demonstrations!

Opportunities like this come around only once in a, ahem, blue moon. Don't miss out on what promises to be a wonderful event in celebration of your ASABE Foundation.

Cost: \$150 per person – includes transportation between hotel and venue, after-hours exclusive visit to exhibits, three-course dinner, hosted bar, all taxes & gratuities. Please pre-select your dinner choice when you register.
